DETAILED ACTION

Response to Arguments

Applicant's arguments, see REMARKS, filed 8/15/06, with respect to "no differential between the line in and the line out for generating power" have been fully considered and are persuasive. The rejection of 5/15/06 has been withdrawn.

Allowable Subject Matter

Claims 1-14 allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or suggest that after each zero cross the electronic power delivery component does not deliver an initial portion of each current pulse to said line out, and the initial portion of each current pulse is used to charge said capacitor to provide an energy source for the controller.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Robert L. DeBeradinis whose number is (571) 272-2049. The Examiner can normally be reached Monday-Friday from 8:30 am to 5:00 pm.
